Ramapo Saints Hockey - Locker Room Monitor Season Schedule

MONITORING OF THE LOCKER ROOM - Each manager is required to submit a schedule to the RYHA indicating the parent/manager/coach responsible for monitoring your team's locker room for all practices and games. With at least one screened and certified SafeSport team staff member present and around the locker room area you may use family members to assist in monitoring the locker room. If the Manager and Team Coaches choose to take full responsibility by placing themselves as the sole providers of coverage for every event for the entire season, you are required to email your parents and explain the team staff are handling the locker room monitoring.
